

SureHeat Kerosene

Working in conjunction with our partner Dipetane Ireland, we at Curran Oil can now provide our customers with SureHeat Kerosene. This product will provide users with a cost saving greener fuel and can also reduce your maintenance costs on your boiler.

*Field Tests have shown SureHeat lasts up to 10% longer by burning off more of the carbon which also reduces carbon deposits in your boiler which should lead to reduced servicing costs.

Advantages of using SureHeat Kerosene

- This is a greener home heating oil which reduces carbon emissions by up to 25% as more of the harmful carbons are burned off during combustion rather than being released into the atmosphere.
- Reduces smoke by up to 50% *
- Economically Savings; Lasts up to 10% longer than standard home heating oil. *
- Reduces carbon deposits in your boiler therefore reducing servicing costs and increases the lifespan of your boiler.
- Works in any appliance that uses standard home oil.

GREENER - CLEANER - ECONOMICAL

* Results of extensive field testing over 20 years
